

GOLDEN COWS 2023

Introduced in 2018, the Golden Cow is a replacement for the Elite Cow Scheme. As well as looking at the EBV's for a cow and her progeny, the Golden Cow also takes into account the physical attributes of the cow from the Classification scores awarded to her.

Qualifying criteria for Golden Cow Award

- Cow must have five calves with an average calving Interval of 13 months (twins are classed as one calving)
- Cow must have indexes above breed average
- All calves must have indexes above breed average
- Cow must be classified as Excellent

Once awarded Golden Cow status this award remains whilst the cow is live and active in the herd book.
